Collaboration: Cross-functional Stakeholder Management, Requirements Gathering, Knowledge Transfer, Automation Training

PROFESSIONAL EXPERIENCE

FP & Data Analyst | *Movatoo Assets, Warsaw, Poland, 05/2025 – Present*

• Generate and develop a hospitality finance tracking system to monitor revenue, payments, and cash flow, reconcile transactions across sales channels, and identify payment discrepancies.

• Build and maintain financial datasets using SQL and develop interactive Streamlit dashboards to track key hotel performance metrics, including revenue, occupancy, ADR, and RevPAR.

• Develop an invoice management application using Power Apps and SharePoint to streamline invoice registration, approval workflows, document management, and change tracking.

• Integrate financial and operational data from multiple sources using SQL, Python, and Power Query, ensuring data accuracy through validation, reconciliation, and root cause analysis.

• Collaborate with finance and operations teams to understand business needs, define KPIs, and improve financial reporting processes.

• Automate recurring financial reporting and data preparation tasks to reduce manual work, improve efficiency, and ensure consistent reporting.

NCI Data Analyst, Contractor | *PepsiCo, Bern, Switzerland, Remote , 04/2025 – 04/2026*

• Managed ETL workflows integrating cloud ERP data into IBM Planning Analytics (TM1) for financial planning and reporting.

• Performed financial data mapping, validation and adjustments to maintain accurate and consistent planning datasets.

• Managed monthly reconciliation and technical submission processes, identifying and resolving data discrepancies.

FP&A Assoc Analyst | *PepsiCo, Krakow, Poland, 02/2023 – 08/2024*

• Supported AOP, ESP, monthly Forecast and Month-End Close cycles, including financial reconciliation and reporting.

• Managed and validated consolidated planning datasets across 20+ workbooks and delivered 21 recurring monthly Forecast, Actuals and Reconciliation reports.

• Maintained ETL processes and financial data flows into Tableau Cockpit to support accurate dashboard reporting.

• Digitalized three recurring finance workflows using VBA macros, UiPath and other automation tools; reduced one task from 90 to 1.5 minutes (98% faster).

• Delivered automation training to the India-based team, supporting adoption of digital finance workflows.

• Collaborated with finance stakeholders to investigate data errors, perform root cause analysis and improve reporting accuracy.

Data Analyst | *DPDgroup IT Solutions, Warsaw, Poland, Project-Based Contract, 03/2022 – 09/2022*

• Supported the implementation of a new Billing & Invoicing application for DPD Belux, migrating data through ETL processes with PostgreSQL, Excel and FileZilla.

• Improved data integrity by 95% through root cause analysis of data quality issues during data comparison, contributing to successful project delivery.

Business Analytics Team Member | *Information Technology Group, Istanbul, Turkey, 07/2020 – 12/2020*

• Worked on vSRM CRM / Supply Chain Management platform projects for three major client companies.

• Developed BPMN business process models for reports and dashboards, applying PMI and Agile methodologies in Jira.
