PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience in business intelligence, financial reporting and analytics automation across FMCG (PepsiCo), logistics (DPDgroup), hospitality and higher-education data. Skilled in SQL, Python (pandas), Power BI, Tableau, dbt, Apache Airflow and Excel, working with ERP, financial and transactional data sources. Experienced in KPI development, data quality, reconciliation and root cause analysis, and in turning business requirements into dashboards, data products and automated reporting for finance and operations stakeholders.

TECHNICAL SKILLS

Languages & Querying: SQL (SQL Server, PostgreSQL), Python (pandas, NumPy), VBA, Power Query

BI & Visualization: Power BI, Tableau, Streamlit, Microsoft Excel (advanced), KPI Reporting, Dashboard Development, Data Storytelling

Data Engineering: dbt, Apache Airflow, Databricks, ETL / ELT, Data Warehousing, Dimensional Modeling, Alteryx

Planning & ERP: IBM Planning Analytics (TM1), cloud ERP data extraction, budgeting & forecasting data

Analytics: Exploratory Data Analysis (EDA), Statistical Analysis, Time Series Forecasting, Data Validation, Data Reconciliation, Root Cause Analysis

Automation & Tools: UiPath, Python automation, Jira, Agile / Scrum, BPMN

PROFESSIONAL EXPERIENCE

Data Analyst | *Movatoo Assets, Warsaw, Poland, 05/2025 – Present*

- Built the Hospitality Finance Analysis Platform, an analytics product used by the CFO, hotel management and the Finance Department to track revenue, payments and cash flow.
- Develop analytical datasets and reporting pipelines with SQL, Python, Power Query, dbt and Apache Airflow across finance, hospitality and operational data sources.
- Analyze large datasets from USOS (Student Information System) and LSI Hospitality databases to identify performance drivers, product lifecycles and operational opportunities.
- Build dashboards, Streamlit applications and recurring reports to monitor KPIs, revenue, sales channels and financial performance.
- Perform data validation, reconciliation and root cause analysis to resolve discrepancies and ensure accurate financial reporting.
- Automate recurring data preparation, validation and reporting processes with SQL and Python.
- Gather requirements and define KPIs with finance, operations, technical stakeholders and university lecturers.

Data Analyst | *PepsiCo, Bern, Switzerland, Remote/ Contractor, 04/2025 – 04/2026*

- Built data extraction and transformation workflows from cloud ERP systems for integration into IBM Planning Analytics (TM1).
- Applied data mapping, transformation logic and validation rules to produce standardized planning datasets.
- Delivered monthly reporting based on the standardized and transformed datasets.

Data Analyst | *PepsiCo, Krakow, Poland, 02/2023 – 08/2024*

- Managed and optimized large-scale budgeting and forecasting datasets across 20+ workbooks, ensuring data accuracy for cross-functional finance teams.
- Delivered 21 monthly reports (forecast, actuals and reconciliation) supporting the financial planning process.
- Automated ETL and reporting workflows with Python, SQL and Alteryx, significantly reducing manual effort.
- Delivered 5+ automation projects using Python, VBA and UiPath to streamline repetitive finance tasks.
- Visualized month-end results in Tableau (Cockpit), giving stakeholders actionable insights for decision-making.
- Resolved data errors and discrepancies with business partners through root cause analysis.

Data Analyst | DPDgroup IT Solutions, Warsaw, Poland, Project-Based Contract, 03/2022 – 09/2022

- Supported the implementation and data migration of a new Billing & Invoicing application for DPD Belux, executing ETL processes using PostgreSQL, Excel, and FileZilla.
- Performed data validation, reconciliation, and root cause analysis to identify and resolve data quality issues, improving data integrity by 95% and supporting successful project delivery.

Business Analytics Team Member | Information Technology Group, Istanbul, Turkey, 07/2020 – 12/2020

- Worked on vSRM CRM / Supply Chain Management platform projects for three major client companies.
- Developed BPMN business process models for reports and dashboards, applying PMI and Agile methodologies in Jira.

EDUCATION

Master in Management | University of Economics and Human Sciences, Warsaw, Poland, 03/2021 – 02/2023**Bachelor in Industrial Engineering | Istanbul Technical University, Istanbul, Turkey, 10/2016 – 02/2020**

Relevant coursework: Statistical Modelling, Probability, Statistical Time Series Forecasting, Operations Research, Data Structures and Object-Oriented Programming, Supply Chain Management
